 owner other

group

 directing

The diagram illustrates the mapping of permission groups to file permissions. A yellow arrow points from the label 'owner' to the first three permissions 'drwx'. A blue arrow points from the label 'group' to the next three permissions 'r-xr-x'. A yellow arrow points from the label 'other' to the final permission 'x'.

- r - read
- w - write
- x - execute

change mode - chmod

-rw-rw-r--

chmod **+x** script $\rightarrow$ -rw**x**rw**x**r**x**

chmod **o-rx** script $\rightarrow$ -rw**x**rw**x****---**

chmod **g-w, o+r** script $\rightarrow$ -rw**x**r**-x****---**

chmod with octal notation

permission	value
read	4
write	2
execute	1
